larkit | Least common denominators

Grade 5 · Fractions

Answer key The answers are filled in.

1. What is the least common denominator of $\frac{1}{10}$ and $\frac{2}{5}$?

   10

2. What is the least common denominator of $\frac{5}{12}$ and $\frac{1}{3}$?

   12

3. What is the least common denominator of $\frac{1}{8}$ and $\frac{1}{2}$? **8**

4. What is the least common denominator of $\frac{1}{10}$ and $\frac{7}{8}$?

   40

5. What is the least common denominator of $\frac{1}{12}$ and $\frac{8}{9}$?

   36

6. What is the least common denominator of $\frac{1}{10}$ and $\frac{3}{8}$?

   40

7. What is the least common denominator of $\frac{1}{6}$ and $\frac{7}{9}$? **18**

8. What is the least common denominator of $\frac{3}{10}$ and $\frac{1}{12}$?

   60

9. What is the least common denominator of $\frac{7}{8}$ and $\frac{9}{10}$?

   40

10. What is the least common denominator of $\frac{3}{5}$ and $\frac{3}{10}$?

    10
