Line plots in eighths, tables and data questions

Grade 4 · Graphs & Data

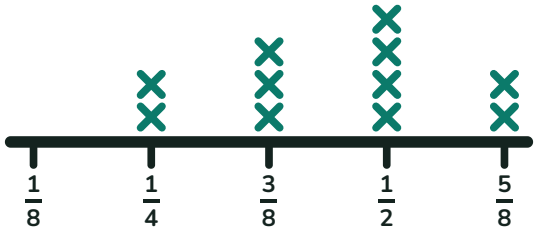

Answer key The answers are filled in.

1

Day	Rain (inches)
Monday	3.77
Tuesday	0.7
Wednesday	0.9
Thursday	1.1

The table shows how much rain fell each day. How many more inches of rain fell on Monday than on Tuesday and Wednesday together? **2.17**

2

Seed lengths (inch)

The line plot shows the lengths of some seeds a class collected. Cora thinks the most common length was $\frac{1}{2}$ inch. Is Cora right?

Check one:

- [x] **Yes. The most common length was $\frac{1}{2}$ inch. 4 seeds had that length.**
- [ ] **No. The most common length was $\frac{5}{8}$ inch. That is the biggest length on the line plot.**
- [ ] **No. The most common length was $\frac{3}{8}$ inch. 3 seeds had that length.**
